In the superlative degree the wart hog is absolutely the ugliest thing on earth, except it be another wart hog. It would be hard to analyze the reasons for anything being as hopelessly a phantasm of hideousness as the face of a wart hog. It is pretty much all dun-colored bone, and starts from about two inches from behind the ears. ending in a kind of a point where his teeth protrude. Congress are very often accused of be-ing paternal, and now it looks as the they were going to be maternal as well. There has been more than a year's discussion in that big white marble pile up on the hill, known as the Senate Office Building, over the running of the restaurant. While the larger part of the Senatorial appetite is plain, it is at the same time epicurean. A Pure Food Committee has been on an investigating tour of the cellars kitchens, pantries, facilities and other para phernalia in the Senate Restaurant, and conditions show that there is a woeful lack of cleanliness. The Senators have now concluded that they want the Senvision, hence an amendment was inserted by the Senate in the House bill, which provides that all improvements and the equipment to the Senate kitch-

He thinks that the public should be fully protected thru the interstate commerce act and co-operating State laws.

Mrs. Marilla M. Ricker, of Dover, N. H., has announced her candidacy for Governor of New Hampshire, and Governor of New Hampshire, and thereby created a sensation. Mrs. Ricker is a lawyer and also a leader in the suffrage movement and general all-around bright woman. She has plenty of money, and for the Winter has been sojourning in California. Mrs. Ricker says that taxation without representation is tyranny, and she protests against the injustice of having to pay taxes without having a vote to protect her property. She also says that so long as women are hanged under the laws they should have a hand in making laws. Mrs. Ricker will at least make things interesting in New Hampshire about election time, even the she presumably stands no show of reaching the office or of holding it even if she were elected.

Senator Frank P. Flint, of California, has firmly decided that he will not be a candidate for re-election to the Unit-ed States Senate. He says very simply and plainly that the primary law of the State of California is fashioned only for rich men. It makes it necessary for the success of a candidate to the United States Senate to have a personal political organization in every State Sena-torial and Assembly District. He says he is not rich enough to maintain such an organization, and he wouldn't accept an office that was obtained at a price from his friends, and so he is just go

And now our "kissing plant" is catching it mighty hard at the hands of writers and the tongues of members of Congress. Even Secretary Wilson, tree expert is out in an attack upon the mistletoe, and has expressed himself in a pamphlet of about 40 pages, entitled "The Mistletoe Pest in the Southwest." in which he calls the Christmas kirsing bough some hard names, and accuse Mrs. Stonewall Jackson and her granddaughter, Mrs. Preston, have rein the Southwestern States and Terri-

The memory of the soldier who fought thru the civil war as the substitute of Abraham Lincoln may be honored by a statue. Few persons know that President Lincoln sent a substitute to the front during the stormy days of the civil war, but his name will be en-graved in the niche of fame if the bill providing for a statue in his honor be-comes a law. A bill appropriating \$20,-600 for the purpose was presented in the House by Representative Palmer,

SI KLEGG:

His Transformation from a Raw Recruit to a Veteran

ILLUSTRATED

FEW BOOKS in the literary history country had such instantaneous success and wide popularity as the "Si Klegg" series. From the very first the story attracted a host of readers, and these increased

in geometrical ratio as the publication progressed. It is the story plainly, sim-ply and truthfully told of the development of two green country boys into veteran soldiers of the highest type The story is told with affec-tionate fidelity by one who marched, camped and fought with them, and there is a universal agreement that it is far the best story of the experience of the enlisted men in the Union Army that has ever been written. Every detail and incident is so truthful, so like his own experience that the veteran instantly recognizes it with a burst of laughter or the tears welling into his eyes. The abounding humor of the book is one of its most fascinating features. Wherever it is possible to extract fun out of any situation or happening it is done in the real old army way. The heros of the story see the fun themselves at once and the author vividly depicts it.

Everywhere the veterans have laughed and cried over the story, hungered for another installment, read selections from it at their Post meetings and Reunions, and have recommended it to their children and friends as the truest picture ever written of real life in the Union Army. After its publication in The National Tribune the publishers yielded to the strong demand and republished it in book form. The editions were long ago exhausted, but the demand for the book has been so great that it has been decided to reissue it in better form, with additional illustrations, and in a more creditable typographical way. Each volume will deal with a distinct period of Si Klegg's army experience, with his transformation from a raw recruit into a soldier and then into a sea-

soned veteran. Each volume will be of about 250 pages, printed in large, clear type on good white paper, and bound in paper and cloth. The paper copies will be sent to any address postpaid upon the receipt of 50 cents, and \$1.00 for those bound in cloth. The first volume is now under way and will soon be out. It deals with Si Klegg's leaving his Indiana home to enlist and his early experiences in the Army while he was undergoing the haps and mishaps which at length lick him into shape as a real soldier, fit for any duty that might be assigned to him.

The second volume will take him up where he has become seasoned to war and carry him thru several battles and campaigns. Other volumes will follow.

Those who have been long desiring copies of the book can at once send in their orders, accompanied by 50 cents for each copy in paper to
